

THE WIZARD OF OZ

On one of her daily strolls, Dorothy noticed something strange

before her was a sign for a new ward, which might have the answers to her problem!

She'd been in the hospital for too long, she thought, and decided to take a peek

And found she wasn't in hospital any more

The hallway led to an open doorway

She walked through it

She ran towards the Emerald city, as her excitement grew

Suddenly the Wizard appeared,

but something was out of place

She was going to meet the Wizard

Dorothy walked to the curtain

And pulled it back, to reveal a humble doctor

And find the answers.....
